Citizen-Led Renovation overview Phases I and

Phase I: Lighthouses & Followers Board Members present

I. Need for clarity

- **Goals**
- **M** KPIs
- (Legal) structure + governance
 - Voluntary basis or not?
- USP your message to stakeholders

II. Map and Engage Stakeholders

- Have a good overview
- Identify and engage with local champions
- Bring decision makers on board early on
- Identify local tech experts upfront
- Engage with local experts
- Build trust (takes time!)

III. Impact

- Have realistic expectations
 - What is realistic? (peers)
- (How) do you measure your impact?
- What impact did you plan to have by the end of 2025?
- What impact do you now plan to have with CLR support?

IV: Understand funding

- For members / citizens
- # For your organisation
- Sustainable business plan
- VC-like approaches?

V: Other insights

- (Also) go for the low hanging fruits
- Take time to understand the risks
- CLR is not easy: everyone needs to be on board!
- Allow for failure
